

# CAR ASSIST HANDLE & EMERGENCY TOOL

## INSTRUCTION MANUAL

[Scan QR Code for Video Guide](#)

Getting in and out of the car shouldn't feel like a workout. This Car Assist Handle gives you a sturdy, secure grip point to help you stand up, lower down, and move with more confidence, especially when seats are low, slippery, or your body is having a harder day.

It slots straight into your car door latch (the U-shaped striker), giving you extra support without needing to permanently install anything. It's compact enough to keep in your glovebox or bag, and it's also a handy emergency tool with a built-in seatbelt cutter and window glass breaker for added peace of mind.

### Great for:

- Getting in and out of the car with more confidence
- Reduced mobility, disability, or limited leg strength
- Hip, knee, back, or joint pain
- Injury recovery or post-surgery support
- Hypermobility and connective tissue conditions (including EDS)
- POTS or dizziness when standing up quickly
- Older adults wanting extra stability and safety
- Slippery seats, wet weather, or awkward car angles
- Keeping in your car for everyday support and travel
- Emergency preparedness (seatbelt cutter + window breaker)

### Features:

- Ergonomic non-slip grip for a secure hold
- Durable metal tip designed to fit into the car door latch
- Compact and portable for glovebox or handbag storage
- Built-in seatbelt cutter for emergencies
- Built-in window glass breaker for emergency exits
- Quick to use with no permanent installation

# CAR ASSIST HANDLE & EMERGENCY TOOL

## INSTRUCTION MANUAL

**Image Description:** A compact car assist handle is shown with a black and blue ergonomic grip and a durable metal tip. The metal end is shaped to fit securely into a car door latch. Images also highlight the built-in safety features, including a seatbelt cutter and a glass breaker, showing the tool being used for support when getting in and out of a car.

### Details:

**Material:** stainless steel, ABS plastic, non slip coating

**Size:** 17.5cm (L) x 10.8cm (W)

**Weight:** 260 grams (approx)

**Package Contains:** 1x Car Assist Handle & Emergency Tool

**Ages:** Suitable for teens and adults. Use with supervision for children where appropriate.

### How to use:

1. Open your car door fully
2. Locate the metal latch loop on the car frame (door striker)
3. Insert the metal tip of the handle into the latch loop until secure
4. Hold the grip firmly and use it for support as you sit down or stand up
5. Remove and store after use

**Quick Safety Note:** This tool is designed for support and emergency use. Always check it is seated securely in the latch before putting full weight on it.

### How to Use for Emergency Use:

- **Seatbelt Cutter:** Pull the seatbelt strap tight, slide the strap into the cutter slot, and pull firmly to cut
- **Glass Breaker:** Aim for the corner edge of the window (strongest break point), press the metal tip firmly against the glass, and strike to break

Exit the vehicle safely and call emergency services

### Care and Cleaning Instructions:

- Wipe clean with a damp cloth
- Use mild soap if needed
- Do not soak for long periods
- Dry fully before storing
- Store in a dry place (glovebox, door pocket, or bag)
