

LOCKABLE MEDICATION TRAVEL CASE

INSTRUCTION MANUAL

Need something a little smaller and lighter for everyday carry?

This compact lockable medication pouch keeps your essentials secure, organised, and easy to grab when you're heading out the door. It's soft, flexible, and low profile, so it slips easily into your handbag, backpack, or car without taking up much space, while still giving you enough room for daily medications, small bottles, or health supplies.

The wipeable outer fabric keeps things practical, and the bamboo and activated carbon lining helps contain odours so smells stay inside the pouch, not your bag. With a built-in TSA combination lock, it adds an extra layer of safety around children and peace of mind when travelling.

Simple, discreet, and easy to live with, it's a tidy little organiser that supports independence and everyday routines.

Great for:

- Daily tablets, blister packs, or small bottles
- Diabetes or personal medical supplies
- Handbags, backpacks, and glove boxes
- Travel and overnight stay
- Keeping medications out of reach of little hands
- Home organisation without clutter
- Anyone wanting a smaller, lighter option

Features:

- Built-in TSA approved combination lock
- Soft, lightweight fabric that fits easily into bags
- Adjustable dividers to separate and organise items
- Bamboo and activated carbon lining to help absorb and neutralise odours
- Wipeable exterior for easy cleaning
- Carry handle or strap for grab-and-go use
- Discreet look that doesn't feel clinical

LOCKABLE MEDICATION TRAVEL CASE

INSTRUCTION MANUAL

r

Details:

Material: PU + Activated Carbon + ABS Plastic

Size: 20cm x 10cm x 7cm

Weight: Approx 140 grams

Package Contains: 1x Bamboo Filter Carbon TSA Lock Box Medication Bag

Age Guidance: Suitable for adults and teens managing their own items, and should be kept out of reach of young children without supervision. Not a toy.

How to Use:

1. Arrange the dividers to suit your items
2. Place medications or supplies inside
3. Zip closed and scramble the lock numbers
4. Store in your bag or carry with the handle

Lock Instructions:

1. Default code is set to 0-0-0
2. Set dials to 0-0-0 and open the zipper
3. Press and hold the reset button
4. Turn the number dials to your chosen code
5. Release the button to save your new code
6. Test your code before use to make sure it's set correctly

Care Instructions:

- Wipe clean with a damp cloth
- Air dry fully
- Do not machine wash
